

# Moore: It is important for all trouble spots in District 2 to be reported

Continued from page 2A

stations. No one wants sewage to back up into homes.

Then it is important to work with Duke Energy to remove trees tangled in power lines. Never try to remove trees near power lines yourself. In fact, Duke is called even before the public works team can start cutting tree limbs. We lost a precious man in the Pine Hills area who touched a live wire.

A special shout-out to our manager of ponds, Jeff

Charles. He answered myriad calls about breached ponds, swollen drain wells, and the like. All his team’s hard work matters in an instant, during severe flooding. He makes sure ponds are well-maintained. This means more than just cutting grass. They manage soil conditions, excess debris, and pond wall integrity.

As to having the stamina to prepare for a hurricane, I found more and more elderly people without family or friends to assist in this process. It is vi-

tal we understand the limitations of our neighbors and show some concern. The most successful neighborhoods are well acquainted with and offer to meet specific needs like filling sandbags, moving outside furniture, providing generators, etc.

For many of you that have flooding in low-lying areas, some of these areas were built prior to codes which limit construction adjacent to wetlands. Have you checked the 100-year flood zone map? Flooding occurred in many flood

zones and areas next to wetlands.

Then there are those areas with long, systemic flooding issues. Again, roadways that are in low-lying areas will always fill up with water and will naturally recede after a storm. Yes, in some cases expensive fixes would be preferable. However, it is challenging to find the millions of dollars necessary for remediation.

A few special cases, I would like to mention. Remember, either I or the county staff have visited trouble spots in District 2 by now. I welcome you reporting problems when you first view them. This morning, I visited a sink hole off Beggs Road. I found the contractor and county staff had just remedied the sink hole.

As for the major flooding, that is simply difficult. The ground is saturated and in the case of the Pinto Road area, the water cannot drain due to a lack of capacity in Lake Gandy.

When Pine Hills Road was built, they left homes lower than the road. I wish I had been on the BCC at the time. Staff is working on short-term pumping in this area of Lockhart. I will follow up with discussions of any long-term solutions.

If you haven’t studied how water drains in northwest Orange County, I will give you a short primer. We drain to the St. John’s River and out to the Atlantic Ocean through Jacksonville. Pine Hills drains to Lockhart and then up the Little Wekiva River. Apopka drains either towards the Wekiva River or to Lake

Apopka.

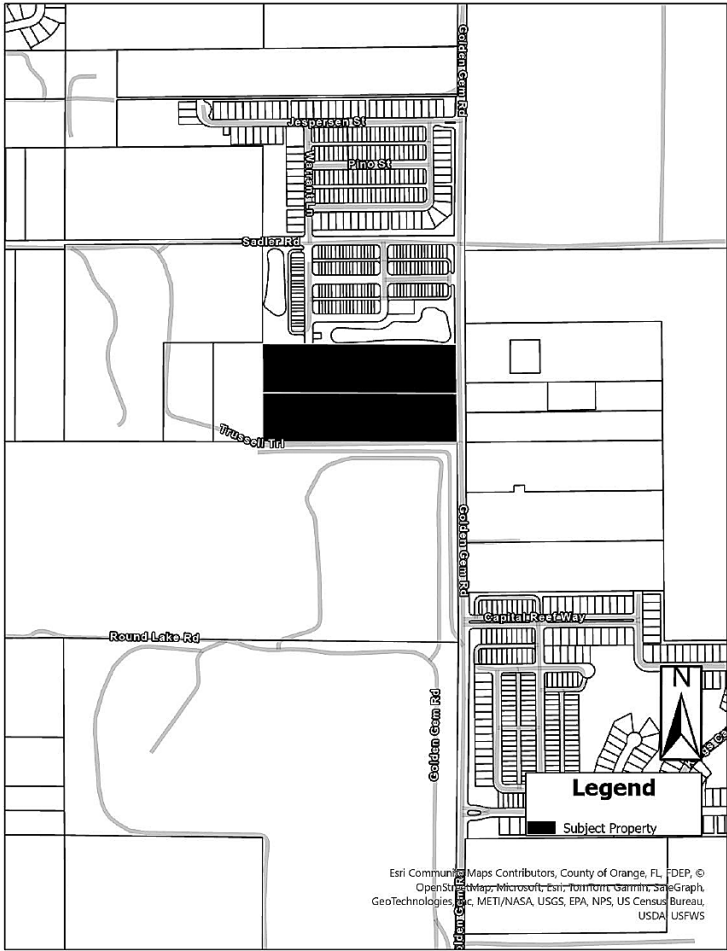

On a personal note, during the hurricane I had too much water draining into my home’s foundation. I have a compost pile which I can repurpose to raise up these few areas. I also experienced water intrusion through a few window seals. So, I will be recaulking the windows. And sorry to say, I have a broken window I never fixed from when my then teenage daughter sneaked in. It leaked and I had to put towels in that windowsill. She is now the mother of three of my grandchildren. Yes, a lack of maintenance and repairs can haunt any of us.

So, I encourage you to evaluate what went well and what didn’t. Now is the best time to make the necessary repairs and complete needed maintenance.

and they were cared for by the wonderful staff including principal Lyle Heinz. Thank you to those who helped make that shelter available to the community.

After a storm passes, the district staff immediately assesses all the properties to check for damage. Sometimes, schools are not able to open right away depending on damage, power outages, and other factors. This time, we were quite lucky as there didn’t appear to be any significant damage to any of the buildings.

We did have several schools without power, but those schools were back online by Monday. Quite remarkable considering the massive power outages in our area.

Roads and routes to schools also have to be checked and cleared as well to be sure that buses can safely get our children to school. All bus drivers drive the routes a couple of times before schools are back in session to make sure bus stops and routes are cleared of debris.

There is tremendous teamwork and coordination

as well as extra hours of work from the district level to the school level to get our schools through these storms.

I want to personally thank everyone who had a hand in getting us through this storm. Thank you for your time, effort and efficiency in ensuring our *public school* buildings are kept as safe as possible and that our students can return as quickly as possible.

Let’s hope this is the last storm we have to deal with this hurricane season!

# Hayden: Vote NO on abortion

Continued from page 2A

no ability to respond.

During the Nuremberg Trials the defense argued that the accused murderers of over six million Jews, Christians, Blacks, and other races whom they judged as inferior, were just following the laws of their nation. One of the prosecutors silenced that argument with the comment, “Are we not under a much higher law than that of men?” Rudolf Hess, and the rest of the hierarchy of the Nazi movement were sentenced to hang because of that higher law.

Whether the abortionist wins the vote or not, there is coming a day when we all will be judged by that higher law.

When I was a child, the norm was for parents to have at least three children. The formula was to replace the parents and then have one more for unforeseen loss of one to sickness, accident, or other factors. In an interview the other day, former President Bill Clinton postulated that since the

birth rate in America is not sufficient to keep up with job demands for workers, immigration is imperative!

Here we are in America talking about murdering babies in the womb as if it is absolutely necessary for a woman’s health but, in reality, most abortions are chosen for selfish reasons. Around 40 percent of people in a 2013 study mentioned a financial reason for needing an abortion.

Most of them had general financial concerns or said they could not afford to support a child. Almost one-third (31percent) of study respondents gave reasons relating to their partner.

I wonder – why would you choose someone for sexual gratification, knowing your partner would not be suitable as a responsible parent, and not use prophylactics? The answer is, abortion is available and if a baby would inconvenience you, just get rid of it!

Former President Bill Clinton stated *our birth rate is too low*, so we need

immigration; and, out of the other side of the Democratic Party’s mouth comes the call for *freedom for abortion for all*, without any restrictions as to age, reason, use of taxpayer funds, or any governmental or parental intervention.

When Roe vs Wade was overturned, there was so much ruckus about how women were going to suffer because of that Supreme Court decision, and the truth be told, all they did was follow the Constitutional guidelines and returned control of that legislation back to the individual states, where the Constitution says it belongs.

Before you vote on Amendment Four, do your own research. Don’t listen to all the rhetorical garbage used for promoting abortion.

And, by the way, what happens to the aborted baby. Who or what benefits from that whole baby or its pieces?

Make up your own mind, then VOTE!!
